A COMPARATIVE STUDY OF RULES AND LAWS

PREFACE:

Many High School officials officiate soccer matches using Rules and Laws of soccer organizations and rule-making bodies other than the NFHS. As is to be expected, officials on occasion have some confusion regarding a specific rule or interpretation. For these reasons a study guide is needed for the officials to have easy references to the differences between NFHS, NCAA and FIFA Laws and Rules. Over the past twenty-five years the more significant rules have been brought generally into conformity by the three groups. Nevertheless, there are distinct differences in language and interpretation that still exist and each group has adopted specific rules that are believed to be more appropriate for their players and their ages.

This guide is not an all-inclusive listing of each difference between the sets of Rules and Laws, but rather only lists the more important differences where such differences exist. Many technical and administrative rules such as player eligibility and accumulated cautions do not generally and directly concern the referee but rather the match administrators and have therefore been omitted from this study.

The guide has been designed by the author for easy reference and many officials have carried this guide in their kit or in their cars for quick review prior to a match. It is also useful as a teaching aid for High School entry level and in-service clinics. Changes for the current year are shown in *italics* for easy reference.

The comparisons are in tabular form following the particular topic and are in order of the specific Laws or Rules to which they are relevant except for the listing on page 3 which compares general Topics not referred to in specific Rules or Laws and several miscellaneous topics which are referred to on page 15.

It should be noted that the three sets of Rules and Laws are constantly changing and the different bodies publish their changes at different times of the year. Generally the FIFA Laws are published in May and take effect the following July. The NCAA Rules are enacted early in the year, but are not normally published until early or mid summer. NFHS rule changes are enacted by their Rules Committee early each year and are distributed in early summer. Beginning in 2008, the NCAA Rule Book is published every other year. Accordingly, this guide is current only up to the date of its publication and includes all rules changes for the year as presently known by the author. If any errors are noted, it would be appreciated if they are brought to attention of Don Dennison at donsar@comcast.net

Where the Rules or Laws are Employed	Most public high and intermediate schools and some private schools	NCAA, NAIA, NJCAA, NIRSA and NCCAA	International matches, professional leagues, most club and semi-pro matches, and some private schools
Interpretations	Play rulings in the Rules book are interpretations approved by the NFHS Soccer Rules Committee. Member state associations of the NFHS independently make decisions regarding compliance with or modification of the playing rules for the student athletes in their respective states. The Rules describe 3 possible systems of mechanics that may be used; the Dual Officiating System, the Diagonal System and the Double-Dual System	Approved Rulings (A,R.) appearing in the Rule book are official decisions of the NCAA. The Secretary Rules Editor can be contacted for interpretations. Generally it is preferable to first go through the NISOA Rules Interpreter. The NCAA Rules Book does NOT contain the description of standardized procedures for the allowed System of Mechanics. NISOA describes the Diagonal System of Control (DSC) for its members in other publications.	Decisions of the Int'l F.A. Board are official interpretations. Additional Interpretations in the U.S. can be obtained initially through the State Director of Instruction (SDI). The USSF Advice to Referees and Questions and Answers on the Laws of the Game are also official sources in the U.S. The diagonal system of control (DSC) is described in other FIFA and USSF publications.
